Preface

MICCAI has become a flagship international conference for medical image computing and computer-assisted interventions. The MICCAI conference was created by merging three closely related and thriving conference series: VBC (Visualization in Biomedical Computing), MRCAS (Medical Robotics and Computer Assisted Surgery) and CVRMed (Computer Vision, Virtual Reality and Robotics in Medicine). MICCAI now provides a single focus for the presentation of high quality research in this important, multi-disciplinary area. The first MICCAI was held in Boston, USA in 1998, and the second meeting was held last year in Cambridge, England. These previous conferences attracted a large number of excellent submissions and were very well attended. These meetings brought together the best theoretical and applied work in this rapidly emerging field, and encouraged constructive dialogue between computer scientists, engineers, and clinicians.

We are delighted to report a high level of interest in MICCAI 2000. A total of 194 papers were submitted, covering a broad range of topics. Of these, 136 were accepted for presentation at the conference – 38 as oral presentations and 98 as posters. All the selected papers appear in these proceedings. Each paper was reviewed by three members of the Scientific Review Committee, selected for technical or clinical expertise of relevance to the subject matter. Final decisions were made by the Program Planning Committee, based on advice from individual reviewers. The result is another volume of high-quality papers that will contribute to the development of this important and exciting area.

We are grateful to the members of the Scientific Review Committee for the time they devoted to the review process. We are also indebted to Branislav Jaramaz, Fredric Picard, and Katharine Cline for superb support in organizing the conference. We are most thankful to the authors of this volume, for submitting a fantastic array of work from basic work on image processing to significant clinical applications of this new technology in orthopaedics, neurosurgery, oncology, surgery, plastic surgery, cardiology, radiology, and other clinical disciplines.

We are pleased to welcome delegates to Pittsburgh and hope that you find MICCAI 2000 an enjoyable and stimulating experience. For readers unable to attend the conference, we hope that you will find this a valuable record of the scientific program, and look forward to meeting you at future MICCAI conferences.

October 2000

Scott L. Delp

Conference Organizing Committee

Third International Conference on
Medical Image Computing and Computer-Assisted Intervention
Pittsburgh, Pennsylvania, United States of America
11–14 October 2000

Conference Chairs
Anthony M. DiGioia UPMC Shadyside Hospital, USA
Scott L. Delp Stanford University, USA

Co-chairs
Richard D. Bucholz St. Louis University Health Sciences Center, USA
Alain Carpentier L'hôpital Broussais, France
Kaigham J. Gabriel Carnegie Mellon University, USA
W. LeRoy Heinrichs Stanford University Medical Center, USA
Louis R. Kavoussi Johns Hopkins Medical Institutions, USA
Michael J. Mack COR Specialty Associates of North Texas, P. A., USA
Richard M. Satava Yale University School of Medicine, USA

Program Planning Committee
Alan C.F. Colchester University of Kent at Canterbury, UK
Takeyoshi Dohi University of Tokyo, Japan
James S. Duncan Yale University, USA
Guido Gerig University of North Carolina, Chapel Hill, USA
Eric Grimson Massachusetts Institute of Technology, USA
Branislav Jaramaz UPMC Shadyside Hospital, USA
Frederic Picard UPMC Shadyside Hospital, USA
Russell H. Taylor Johns Hopkins University, USA
Jocelyne Troccaz TIMC - IMAG, France
Max A. Viergever University Medical Center Utrecht, The Netherlands

Local Organizing Committee
Branislav Jaramaz UPMC Shadyside Hospital, USA
Frederic Picard UPMC Shadyside Hospital, USA
Cameron N. Riviere Carnegie Mellon University, USA
Conference Organizing Committee

Scientific Review Committee
John R. Adler, Jr. Stanford University Medical Center, USA
David Altobelli Private Practice, USA
Licinio Angelini Universita Degli Studi di Roma La Sapienza, Italy
Takehide Asano Chiba University, School of Medicine, Japan
Ludwig M. Auer ISM-International, Germany
Mary Austin-Seymour University of Washington, USA
Nicholas Ayache INRIA Sophia-Antipolis, France
William L. Bargar Private Practice, USA
E. Frederick Barrick Inova Fairfax Hospital, USA
Harry Bartelink The Netherlands Cancer Institute, The Netherlands
Andre Bauer Marbella High Care S.A., Spain
Mitch Berger University of California at San Francisco, USA
Ulrich Berlemann Inselspital, Switzerland
Georges Bettega Hospital A. Michallon, France
Peter Black Children’s Hospital, USA
Dominique Blin TIMC - IMAG, France
Martin Börner BGU Unfallklinik, Germany
Jon C. Bowersox Mt. Zion Medical Center, USA
Richard D. Bucholz St. Louis University Health Sciences Center, USA
Elizabeth Bullitt University of North Carolina School of Medicine, USA
Guy-Bernard Cadiere Centre Hospitalier Universitaire St. Pierre, Belgium
Alain Carpentier L’hôpital Broussais, France
Steven Charles The Center for Retina Vitreous Surgery, USA
Kiyoyuki Chinzei Mechanical Engineering Laboratory, AIST/MITI, Japan
W. Randolph Chitwood East Carolina University, USA
Philippe Cinquin TIMC - IMAG, France
Kevin Cleary Georgetown University Medical Center, USA
Alan C.F. Colchester University of Kent at Canterbury, UK
Paul Corso Private practice, USA
Eve Coste- Maniere INRIA Sophia-Antipolis, France
Hugh Curtin The Massachusetts Eye and Ear Infirmary, USA
Court Cutting NYU Medical Center, USA
Ralph Damiano Washington University St. Louis, USA
