6 Nasal Surgery

G. Rettinger

Preliminary Remarks ........................................... 45
Surgical Anatomy ........................................ 45
Respiratory Function ......................................... 47
Measuring Respiratory Function .......................... 48
Instruments Required for Septoplasty/Rhinoplasty ........ 49
Septoplasty Instruments ................................... 50
Rhinoplasty Instruments .................................. 50
Management of Fresh Nasal Injuries ....................... 51
Soft-Tissue Injuries ....................................... 51
Foreign Bodies ........................................ 51
Fractures of the Bony Nasal Pyramid ..................... 52
Reduction of Fractures .................................. 53
Septal Fracture / Septal Hematoma / Septal Abscess .... 54
Surgery for Septal Hematoma / Abscess ................ 54
Surgery of the Nasal Septum ............................... 55
Functions of the Nasal Septum ............................ 55
Septoplasty ........................................ 57
Septal Perforation ...................................... 70
Surgery of the External Nose (Rhinoplasty) ............... 73
Preliminary Remarks .................................... 73

7 Surgery of the Paranasal Sinuses and Their Adjacent Structures

C. Rudack

Endonasal Surgery of the Paranasal Sinuses .......... 111
Anatomical Aspects of the Paranasal Sinus System .... 111
Preparation for Endonasal Surgery of the Paranasal Sinuses ..... 114
Surgery of the Maxillary Sinus .......................... 114
Endoscopy of the Maxillary Sinus (Sinuscopy, Antroscopy) .... 114
Surgery of the Ethmoid ................................ 117
Endonasal Surgery of the Ethmoid ....................... 120
Surgery of the Sphenoid ................................ 122
Endonasal Opening of the Sphenoid Sinus ............. 122
Surgery of the Frontal Sinus ............................ 123
Endonasal Surgery of the Frontal Sinus ............... 123
Postoperative Care for Endonasal Surgery of the Paranasal Sinuses .... 126
Surgery of the Paranasal Sinuses, Combined with Extranasal Approaches ........ 126
Transfacial Approach to the Maxillary Sinus .......... 126

Lips ............................................................ 39
Deformity of the Vermilion Caused by Scar Contracture .... 39
Minor Lip Defects ..................................... 39
Neck .......................................................... 42
Tracheostoma Closure .................................. 42
Basic Techniques ......................................... 73
Incisions and Approaches to the Nasal Dorsum ...... 73
Osteotomies ........................................... 78
Measuring Points, Lines, and Angles ...................... 81
Nasal Hump Deformity .................................. 83
Crooked Nose ......................................... 87
Saddle–Nose Deformity ................................ 90
Nasal Tip and Nasal Base ................................ 94
Preoperative Analysis ................................... 94
Correction of Nasal-Tip Projection ........................ 95
Correction of Nasal Length ................................ 96
Retracted Columella ..................................... 98
Correction of the Form of the Nasal Tip ................ 98
Correction of Alar Collapse ............................. 101
Malformations ............................................ 102
Nasal Fistulas and Cysts ................................ 102
Choanal Atresia ......................................... 104
Turbinates .............................................. 106
Surgical Management of Epistaxis ......................... 109

Surgery of Oro–Antral Fistulas ............................ 128
Closure of an Oral–Maxillary Sinus Fistula ............. 128
Closure of a Palatinal–Maxillary Sinus Fistula Using a Cheek Rotation Flap ...... 128
Surgery of the Ethmoid Sinus Using an External Approach (Transfacial) .......... 129
Extranasal Surgery of the Frontal Sinus ................ 130
Surgery of the Frontal Sinus Modified after Jansen–Ritter .......... 130
Riedel’s Radical Frontal Sinus Operation ............... 131
Osteoplastic Surgery of the Frontal Sinus ............. 132
Median Drainage ....................................... 134
Surgery of Malignant Tumors of the Paranasal Sinus Region ................................. 134
Lateral Rhinotomy Approach ............................. 135
Technique for Tumors of the Lower Level with Elevation of a Cheek Flap .......... 135
Technique of Total Maxillectomy ...................... 135
Technique of Midfacial Degloving ...................... 136
Surgery of the Oral Cavity and Oropharynx

170
Surgery for Benign Tumors and Cysts

Cysts of the Floor of the Mouth

Benign Lingual Tumors

Abscesses of the Floor of the Mouth

Deep Tongue Abscess

Abscesses of the Floor of the Mouth

Surgery for Malignant Tumors of the Tongue, Floor of the Mouth, Tonsils, and Posterior Pharyngeal Wall

Tumours of the Tip of the Tongue, Margin of the Tongue, and Floor of the Mouth

Oral Approach

Laser Surgical Resection of Carcinomas of the Oral Cavity

J. A. Werner

Alternatives

Surgery for Tumors of the Tonsils, Base of the Tongue, and Pharyngeal Wall

Tumour Tonsillectomy

Laser Surgical Resection of Oropharyngeal Carcinomas

J. A. Werner

Alternatives

Surgery for Snoring and Obstructive Sleep Apnea Syndrome

Uvulopalatopharyngoplasty (UPPP)

Alternatives

Surgery of the Lacrimal Ducts

Endonasal Microscopic and Endoscopic Procedure for Dacryocystorhinostomy

Surgery for Trauma to the Paranasal Sinuses, Orbit, and Anterior Cranial Base; and Surgery of Endocranial Complications

Approach to Fractures of the Zygoma

Fractures of the Zygomatic Arch

Fractures of the Orbital Floor

Approach to Fractures of the Zygomatic Arch

Approach to Fractures of the Orbital Rim

Approach to Injuries of the Upper Paranasal Sinus/Orbital Region

Fractures of the Frontal Sinus Region without Injury to the Skull Base

Injuries to the Anterior Cranial Base

Optic Nerve Decompression

Approach for Orbital Complications of Acute Sinusitis (Orbital Subperiosteal Abscess)

8 Surgery of the Epipharynx

J. Theissing

Adenoidectomy

Biopsy of the Nasopharynx

9 Surgery of the Oral Cavity and Oropharynx

J. Theissing

Surgery of the Tonsils

Tonsillectomy

Alternatives

Surgery for Inflammatory Complications Originating from the Tonsils

Incision and Drainage of a Peritonsillar Abscess

Abscess Tonsillectomy

Incision and Drainage of a Retropharyngeal Abscess

Surgery for Deep Neck Infection Originating from the Tonsils and for Tonsillar Sepsis

Surgery for Abscesses of the Oral Cavity

Superficial Lingual Abscess

Deep Tongue Abscess

Abscesses of the Floor of the Mouth

Surgery for Benign Tumors and Cysts of the Oral Cavity and Oropharynx

Benign Lingual Tumors

Cysts of the Floor of the Mouth

Management of a Ranula

10 Surgery of the Larynx, Hypopharynx, and Trachea

J. A. Werner

Endolaryngeal Operations

Indirect Endolaryngeal Operations

Direct Endolaryngeal Operations

Direct Distending Laryngoscopy Under General Endotracheal Anesthesia (Microlaryngoscopy after Kleinsasser)

Direct Laryngotraceoscopy using the Ventilation Laryngotraceoscope

Transoral Cold-Steel Resection of Benign Lesions of the Larynx

Incomplete Glottic Closure in the Presence of Unilateral Adductor Paralysis—Endolaryngeal Approach

Transoral Laser Microsurgery

Benign Disorders

Granulomas

Laryngocele

Papillomas

Laryngomalacia

Laser Surgical Epiglottopexy

Laser Surgical Division of Short Aryepiglottic Folds

Hemangiomas and Vascular Malformations

Approach to Injuries of the Upper Paranasal Sinus/Orbital Region

Fractures of the Frontal Sinus Region without Injury to the Skull Base

Injuries to the Anterior Cranial Base

Optic Nerve Decompression

Approach for Orbital Complications of Acute Sinusitis (Orbital Subperiosteal Abscess)
