It is a great pleasure to thank my friend Leonhard Frerick who was always willing and able to discuss my problems and often helped to solve them.

I am indebted to Susanne Dierolf who has been a constant source of help and encouragement for a long time.

Professors K.-D. Bierstedt, J. Bonet, and D. Vogt kindly contributed several valuable suggestions.

The typing of the manuscript (using $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\mathcal{L}\mathcal{A}\mathcal{T}\mathcal{E}\mathcal{X}$) was mainly done by Lisa Schmitt. I thank her very much.

The diagrams are produced using the package “Commutative Diagrams in $\mathcal{T}\mathcal{E}\mathcal{X}$ ” of Paul Taylor.

The bibliography was produced with $\mathcal{B}\mathcal{I}\mathcal{B}\mathcal{T}\mathcal{E}\mathcal{X}$ using the database MathSciNet of the American Mathematical Reviews.
