1	Indications, Technical Prerequisites, and Investigation Procedure	
	S. BECKH	
1.1	Indications	1
1.2	Technical Requirements in Terms of Equipment	3
1.3	Investigation Procedure	3
	Summary	6
	References	6
2	The Chest Wall	
	R. BITSCHNAU, G. MATHIS	
2.1	Soft-Tissue Lesions	7
2.2	Lymph Nodes (Inflammatory Lymph Nodes, Lymph Node Metastases)	9
2.3	Lesions of the Bony Chest	12
	Summary	15
	References	16
3	The Pleura	
	J. REUSS	
3.1	Normal Pleura	17
3.2	Pleural Effusion	18
3.3	Solid Pleural Changes	22
3.4	The Diaphragm	31
	Summary	34
	References	34
4	Peripheral Lung Consolidation	
4.1	Inflammatory Consolidations in the Lung: Pneumonia	
	G. MATHIS	37
	Summary	48
	References	48
4.2	Neoplastic Consolidations in the Lung: Primary Lung Tumors and Metastases	
	S. BECKH	50
	Summary	55
	References	56

4.3	Vascular Lung Consolidations: Pulmonary Embolism and Pulmonary Infarction	
	G. MATHIS	57
	Summary	70
	References	70
4.4	Mechanical Lung Consolidations: Atelectasis	
	C. GÖRG	72
	Summary	89
	References	89
4.5	Congenital Pulmonary Sequestration	
	G. MATHIS	90
	References	90
5	Mediastinum	
5.1	Mediastinum – Transthoracic	
	W. BLANK	91
	Summary	102
	References	103
5.2	Mediastinum – Transesophageal	
	J. T. ANNEMA, M. VESELIC, K. F. RABE	104
	Summary and Future Perspectives	111
	References	111
6	Endobronchial Ultrasound	
	F. HERTH, H. D. BECKER	
6.1	Instruments and Technique	113
6.2	Sonographic Anatomy	114
6.3	Results of Clinical Application	115
	Summary and Future Perspectives	117
	References	117
7	The White Hemithorax	
	C. GÖRG	
7.1	Predominantly Liquid Space-Occupying Mass	119
7.2	Predominantly Solid Space-Occupying Mass	125
8	Image Artifacts and Pitfalls	
	A. SCHULER	
8.1	Imaging of Marginal Surfaces of the Pleura and the Diaphragm	138
8.2	B-Mode Artifacts	139
8.3	Color Doppler Artifacts and Pitfalls in the Thorax	143
	Summary	145
	References	145

9	Interventional Chest Sonography	
	W. BLANK	
9.1	Ultrasound- or Computed Tomography-Guided Puncture	148
9.2	Apparatus, Instruments, and Puncture Technique	148
9.3	Indications	154
9.4	Risks	159
	Summary	160
	References	161
10	Stepwise Diagnostic Imaging Procedures in Pneumology	
	S. BECKH	
10.1	Chest Pain	163
10.2	Pleural Disease	165
10.3	Pneumonia	167
10.4	Diffuse Pulmonary Disease	170
10.5	Pulmonary Nodule	170
10.6	Bronchial Carcinoma	173
10.7	Search for Metastases in the Lung and Pleura	175
	References	175
	Subject Index	177
