

ACKNOWLEDGMENTS

I would like to extend my thanks to those who have commented on drafts of this book, as well as work which preceded it — in some cases by many years — , for their interesting and useful suggestions. These include Hector Castañeda, Hardy Jones, Ron Moore, David Resnik, Bernie Rollin, and Ed Sherline, as well as the anonymous referees of not only this manuscript but of other work which contained preliminary expressions of the ideas presented here.

Above all, I am grateful to my husband, Jim Forrester, whose incisive critique of an earlier draft forced me to clarify much of the book. Without his constant support — not to mention his help with preparing the camera-ready manuscript — this book could not have been written.

I would also like to thank the University of Wyoming for being appointed a faculty affiliate, with accompanying library privileges.
