

ACKNOWLEDGMENTS

The bulk of the contributions to this volume grew out of the research projects *Language and Human Action*, which was supported by The National Bank of Sweden's Centenary Fund, and *Language and Practice*, supported by the Joint Committee of the Nordic Research Councils for the Humanities (NOS-H). Dr Sharon Rider translated two of the essays into English and corrected the English of eight of the essays. Her work was supported by the NOS-H, the Anders Karitz Foundation and the Research Institute of the Åbo Akademi Foundation. The Research Institute also gave financial support for preparing the manuscript for printing.
