Preface vii

1 Boundedness of Sets 1
1.1 Introduction . . . 1
1.2 Using Examples to Enhance Understanding . . . 1
1.3 Critical Thinking Questions . . . 2
1.4 Questions for Reflection . . . 3

2 Introducing the "Epsilon Definition" of Least Upper Bound 5
2.1 Introduction . . . 5
2.2 Using Examples to Enhance Understanding . . . 5
2.3 Critical Thinking Questions . . . 7
2.4 Equivalent Definitions . . . 8
2.5 Questions for Reflection . . . 8

3 Introduction to the Formal Definition of Convergence 11
3.1 Introduction . . . 11
3.2 Using Examples to Enhance Understanding . . . 12
3.3 Critical Thinking Questions . . . 16
3.4 Questions for Reflection . . . 17

4 Experience with the Definition of the Limit of a Sequence 19
4.1 Introduction . . . 19
4.2 Using Examples to Enhance Understanding . . . 20
4.3 An Algebraic Way to Find N . . . 21
4.4 Critical Thinking Questions . . . 23
4.5 Questions for Reflection . . . 24

5 Experience with the Negation of the Definition of Convergence 25
5.1 Introduction . . . 25

Table of Contents
More information

5.2 Using Examples to Enhance Understanding . . . 25
5.3 Critical Thinking Questions . . . 26
5.4 Questions for Reflection . . . 27

6 Algebraic Combinations of Sequences 29
6.1 Introduction . . . 29
6.2 The Sum of Two Convergent Sequences . . . 29
6.3 The Product of Two Convergent Sequences . . . 32
6.4 The Quotient of Two Convergent Sequences . . . 35
6.5 Weakening the Condition Involving Products . . . 37
6.6 Questions for Reflection . . . 38

7 Conditions Related to Convergence 41
7.1 Introduction . . . 41
7.2 Using Examples to Enhance Understanding . . . 41
7.3 Critical Thinking Questions . . . 44
7.4 Questions for Reflection . . . 45

8 Understanding the Limit Superior and the Limit Inferior 47
8.1 Introduction . . . 47
8.2 The Construction for Limit Superior . . . 47
8.3 The Construction for Limit Inferior . . . 49
8.4 Critical Thinking Questions . . . 51
8.5 Questions for Reflection . . . 52

9 Continuity and Sequences 53
9.1 Introduction . . . 53
9.2 Intuitive Notions of Continuity . . . 53
9.3 Using Examples to Enhance Understanding . . . 55
9.4 Critical Thinking Questions . . . 56
9.5 Questions for Reflection . . . 59

10 Another Definition of Continuity 61
10.1 Introduction . . . 61
10.2 Using Examples to Enhance Understanding . . . 61
10.3 Critical Thinking Questions . . . 63
10.4 Definition of the Limit of a Function . . . 64
10.5 Questions for Reflection . . . 65

11 Experience with the $\epsilon - \delta$ Definitions of Continuity and Limit 67
11.1 Introduction . . . 67
11.2 The Limit Definition with Particular Functions . . . 68
11.3 Algebraic Combinations . . . 71
11.4 Questions for Reflection . . . 76

Table of Contents
More information

12 Uniform Convergence of a Sequence of Functions **79**
12.1 Introduction . . . 79
12.2 Using Examples to Understand Pointwise Limits . . . 80
12.3 Understanding the Two Types of Convergence . . . 82
12.4 Critical Thinking Questions . . . 84
12.5 Questions for Reflection . . . 84

Appendix: Visual Guides **87**
Visual Guide for Lab 3 . . . 89
Visual Guide for Labs 4 and 5 . . . 97
Visual Guide for Lab 6 . . . 101
Visual Guide for Lab 7 . . . 106
Visual Guide for Lab 9 . . . 109
Visual Guide for Lab 10 . . . 117
Visual Guide for Lab 12 . . . 121
