
Table of Contents

1	Introduction	1
2	Radioactivity, Radiopharmacy, and Quality Assurance	3
3	Radiation Safety	18
4	Instrumentation and Quality Assurance	28
5	Image Presentation and Computers	43
6	Skeletal System Scintigraphy	47
7	Central Nervous System Scintigraphy	57
8	Cardiovascular System Scintigraphy	64
9	Respiratory System Scintigraphy	80
10	Gastrointestinal Tract Scintigraphy	90
11	Genitourinary System Scintigraphy	100
12	Neoplasm and Infection Scintigraphy	111
13	Thyroid, Parathyroid, and Salivary Gland Scintigraphy	119
14	Non-Imaging Procedures and Radionuclide Therapy	129
15	Patient Care	139
16	Mock Examination	145
	Appendix: Answers to Questions	169
