

2 Roman numerals

a) We still use Roman numerals for some things e.g. clocks and watches. Can you tell the time on these clocks?

b) Write down the Roman numerals from 1–12 in your exercise book. Try to go on to 19.

c) What are these numbers?

XX XXV XXX XXXVI XXXIX

d) Now do these Roman sums.

XI + III XIX – IV XXV + VI XXXIX – XVIII

e) Use the tip box. What is this number?

DCCCLXXV.

Here's a clue. It's the year in which Guy meets Marcus.

TIP

M = 1000

D = 500

C = 100

L = 50
