

DVS Technical Codes on Plastics Joining Technologies

Selected Translations

Elaborated by Working Group W4
„Welding of Plastics“
of the Technical Committee of the
German Welding Society – DVS

DVS-Technical Codes and Bulletins

DVS 2201-1	(1989-02)	Testing of semi-finished products of thermoplastics Bases – indications	1
DVS 2201-1 Supplement 1	(2004-10)	Testing of semi-finished products made of thermoplastics; Basics – indications – Material and abbreviation	5
DVS 2201-1 Supplement 2	(2004-10)	Testing of semi-finished products made of thermoplastics; Basics – indications – Directives for creep rupture curves of pipes	6
DVS 2201-1 Supplement 3	(2004-10)	Testing of semi-finished products made of thermoplastics; Basics – indications – Linear thermal expansion coefficients	7
DVS 2201-1 Supplement 4	(2004-10)	Testing of semi-finished products made of thermoplastics; Basics – indications – Dimension stability of semi-finished material after heating	8
DVS 2201-1 Supplement 5	(2006-10)	Service life temperature time limits due to thermal draft	9
DVS 2201-2	(1985-07)	Testing of semi-finished products of thermoplastics: Weldability – Test methods – Requirements	10
DVS 2202-1	(2006-07)*	Imperfections in thermoplastic welding joints – Features, descriptions, evaluation	13
DVS 2203-1	(2003-01)	Testing of welded joints of thermoplastic sheets and pipes – Test methods – Requirements	40
DVS 2203-1 Supplement 1	(2006-04)*	Testing of welded joints between panels and pipes made of thermoplastics, Requirements in the tensile test – Short-time tensile welding factor f_z	42
DVS 2203-1 Supplement 2	(2006-04)*	Testing of welded joints between panels and pipes made of thermoplastics, Requirements in the tensile creep test, (Tensile creep welding factor f_s)	43
DVS 2203-1 Supplement 3	(2003-01)	Testing of welded joints of thermoplastic sheets and pipes – Requirements – Technological bend test – Bend angle/ram displacement	44
DVS 2203-1 Supplement 4	(2008-11)*	Testing of welded joints between panels and pipes made of thermoplastics – Requirements on shear and peeling tests for sleeve welding with an incorporated electric heating element (HM) and heated tool sleeve welding (HD) on pipes and fittings	57
DVS 2203-2	(1985-07)	Testing of welded joints of thermoplastics materials – Tensile test	60

DVS 2203-4	(1997-07)	Testing of welded joints of thermoplastics plates and tubes – Tensile creep test	62
DVS 2203-4 Supplement 1	(2001-12)	Testing of welded joints of thermoplastic sheets and pipes – Tensile creep test – Testing of socket joints	66
DVS 2203-4 Supplement 2	(2001-12)	Testing of welded joints of thermoplastic sheets and pipes – Tensile creep test – Testing of the resistance to slow crack growth using the Full Notch Creep Test (FNCT)	68
DVS 2203-5	(1999-08)	Testing of welded joints of thermoplastics plates and tubes – Technological bend test	70
DVS 2203-6	(2008-01)*	Testing of joints between polymeric materials – Shear and peeling tests	73
DVS 2203-6 Supplement 1	(2008-01)*	Testing of joints between polymeric materials – Torsion shear and radial peeling tests for joints executed by means of sleeve welding with an incorporated electric heating element and heated tool sleeve welding	75
DVS 2205-1	(2002-03)	Design calculations for containers and apparatus made from thermoplastics – Characteristic Values	79
DVS 2205-1 Supplement 1	(1996-08)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PP Type 1	113
DVS 2205-1 Supplement 2	(1996-08)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PP Type 2	114
DVS 2205-1 Supplement 3	(1996-08)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PP Type 3	115
DVS 2205-1 Supplement 4	(1996-08)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PVDF	116
DVS 2205-1 Supplement 6	(1997-07)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PE 63	117
DVS 2205-1 Supplement 7	(1997-07)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PE 80	118
DVS 2205-1 Supplement 8	(1997-07)	Design calculations for containers and apparatus made from thermoplastics; creep rupture curves for pipes made from PE 100	119
DVS 2205-1 Supplement 11	(2002-03)	Design calculations for containers and apparatus made from thermoplastics – Creep rupture curves for pipes made from PVC-C	120

DVS 2205-1 Supplement 12	(2002-03)	Design calculations for containers and apparatus made from thermoplastics – Creep rupture curves for fittings made from PVC-C	121
DVS 2205-2	(2008-01)*	Calculation of tanks and apparatus made of thermoplastics – Vertical round, non-pressurised tanks	122
DVS 2205-2 Supplement 1	(2003-11)*	Calculation of tanks and apparatus made of thermoplastics – Welded stationary tanks in the case of installation in buildings	135
DVS 2205-2 Supplement 2	(2008-01)*	Calculation of tanks and apparatus made of thermoplastics – Vertical round, non-pressurised tanks – Collecting devices	143
DVS 2205-2 Supplement 3	(2003-11)*	Calculation of tanks and apparatus made of thermoplastics – Vertical round, non-pressurised tanks – Flat roofs	151
DVS 2205-2 Supplement 6	(2008-01)* draft	Calculation of tanks and apparatus made of thermoplastics – Vertical round, non-pressurised tanks – Shell construction method	155
DVS 2205-3	(1975-04)	Design of thermoplastic tanks and apparatuses – Welded joints	158
DVS 2205-4	(1988-11)	Calculation of thermoplastic tanks and apparatus – Flanged joints	168
DVS 2205-4 Supplement	(1996-11)	Calculation of thermoplastic tanks and apparatus – Welded flanges, welded collars – Constructive details	172
DVS 2205-5	(1987-07)	Calculation of thermoplastic tanks and apparatus – Rectangular Tanks	175
DVS 2205-5 Supplement	(1984-10)	Calculation of thermoplastic tanks and apparatus – Rectangular tanks, structural details	182
DVS 2207-1	(2005-09)*	Welding of thermoplastics – Heated tool welding of pipes, pipeline components and sheets made of PE-HD....	187
DVS 2207-1 Supplement 1	(2005-12)*	Welding of thermoplastics – Heated tool welding of pipes made of PE-Xa with pipeline components made of PE-HD	201
DVS 2207-3	(2005-04)*	Welding of thermoplastics – Hot-gas string-bead welding and hot-gas welding with torch separate from filler rod of pipes, pipe components and sheets – Methods, requirements	206
DVS 2207-3 Supplement 2	(2005-04)*	Welding of thermoplastics – Hot-gas string-bead welding and hot-gas welding with torch separate from filler rod of pipes, pipe components and sheets – Requirements for welding equipment and accessories	215
DVS 2207-4	(2005-04)*	Welding of thermoplastics – Extrusion welding of pipes, piping parts and panels – Processes and requirements	217

DVS 2207-4 Supplement 2	(2005-04)*	Welding of thermoplastics – Extrusion welding of pipes, piping parts and panels – Requirements on the welding machines and welding devices 227
DVS 2207-5	(1993-02)	Welding of thermoplastics – Welding of PE casing pipes – Tubes and tubular components 230
DVS 2207-5 Supplement 1	(1997-07)	Welding of thermoplastics – Welding of PE casing pipes – Fittings and isolating valves 252
DVS 2207-6	(2003-09)	Welding of thermoplastics – Non-contact heated tool butt welding of pipes, pipeline components and sheets – Methods, equipment, parameters 258
DVS 2207-11	(2008-08)*	Welding of thermoplastics – Heated tool welding of pipes, piping parts and panels made of PP 266
DVS 2207-12	(2006-12)*	Welding of thermoplastics – Heated tool welding of pipes, piping parts and panels made of PVC-U 278
DVS 2207-15	(2005-12)*	Welding of thermoplastics – Heated tool welding of pipes, piping parts and panels made of PVDF 285
DVS 2207-25	(1989-10)	Welding of thermoplastic –Heated tool butt welding – Welding of casement sections made from PVC-U 295
DVS 2208-1	(2007-03)	Welding of thermoplastics – Machines and devices for the heated tool welding of pipes, piping parts and panels 302
DVS 2211	(2005-04)*	Welding of thermoplastics – Welding fillers – Marking, requirements and tests 316
DVS 2212-1	(2006-05)*	Qualification testing of plastics welders – Qualification Test Groups I and II – Hot gas welding with the torch separate from the filler rod (WF), highspeed hot gas welding (WZ), heated tool butt welding (HS), sleeve welding with an incorporated electric heating element (HM), heated tool sleeve welding (HD) and hot gas extrusion welding (WE) 320
DVS 2212-1 Supplement 1	(2006-05)*	Qualification testing of plastics welders – Qualification Test Groups I and II – Planned monitoring of the certified plastics welders according to DVS 2212-1 334
DVS 2212-3	(1994-10)	Testing of plastics welders – Examination Group III – Lining membranes in geotechnical and hydraulic engineering 336
DVS 2213	(1996-08)	Specialist for plastics welding – Examination 352
DVS 2214	(1996-08)	Regulations for the examination of the specialist for plastics welding 355
DVS 2215-1	(1999-05)	Hot plate welding of mouldings made from thermoplastics in volume production 357

DVS 2215-2	(1996-11)	Hot plate welding of mouldings made of polyolefins (PE, PP) in volume production	369
DVS 2215-3	(1999-04)	Hot plate welding of mouldings made from amorphous thermoplastics in volume production	381
DVS 2215-3 Supplement 1	(1999-04)	Hot plate welding of mouldings made from amorphous thermoplastics in volume production – Welding parameters for amorphous thermoplastics and blends	388
DVS 2216-1	(2007-04)*	Ultrasonic welding of plastic series parts – Process description, machines and devices, influencing variables, design and quality assurance	395
DVS 2216-1 Supplement 1	(2005-09)*	DVS test specimens with an energy director for the ultrasonic welding of thermoplastics and testing conditions	419
DVS 2216-3	(1992-08)	Ultrasonic joining of moulded parts and semi-finished parts of thermoplastic polymers in mass production – Forming with ultrasonic; staking, swaging and tamping	422
DVS 2216-4	(1992-08)	Ultrasonic joining of moulded parts and semi-finished parts of thermoplastic polymers in mass production – Insertion of metal parts and other materials with ultrasonic	425
DVS 2216-5	(1996-08)	Ultrasonic joining of moulded parts produced of thermoplastic polymers in mass production, manufacture of horns	427
DVS 2216-6	(2002-06)*	Ultrasonic joining of mouldings and semi-finished products made of amorphous thermoplastics in series fabrication	434
DVS 2217-1	(1999-03)	Vibration welding of mouldings and semi-finished products made of thermoplastic polymers in series production	446
DVS 2217-2	(2002-12)	Vibration welding of mouldings and semi-finished products made of thermoplastic polymers in series production: Mouldings made of polyamides	455
DVS 2218-2	(2003-04)*	Welding of thermoplastics in series fabrication – Rotational friction welding of mouldings made of polyolefins (PE and PP)	459
DVS 2218-3	(2006-04)*	Welding of thermoplastics in series fabrication – Rotational friction welding of mouldings and semi-finished products made of polyamides (PAs)	466
DVS 2219-1	(2005-04)*	High-frequency joining of thermoplastics in series fabrication	471
DVS 2219-2	(2005-04)*	Thermocontact welding of thermoplastic films (polyolefins)	477

DVS 2225-1	(1991-02)	Joining of Lining Membranes made from Polymeric Materials (Geomembranes) in Geotechnical and Hydraulic Application – Welding, Bonding by Adhesives, Vulcanising	483
DVS 2225-2	(1992-08)	Joining of lining membranes – Made of polymer materials in geotechnical and hydraulic engineering – Site testing	490
DVS 2225-4	(2006-12)*	Welding of sealing sheets made of polyethylene (PE) for the sealing of dumps and contaminated sites	500
DVS 2226-1	(2000-09)	Testing of fused joints on liners of polymer materials – Testing procedure, requirements	519
DVS 2226-2	(1997-07)	Testing of fused joints on liners of polymer materials – Lap shear test	521
DVS 2226-3	(1997-07)	Test of fusions on PE liners – Peeling test	523
DVS 2226-4	(2000-11)	Testing of fused joints on liners of polymer materials – Tensile creep test on PE	525
DVS 2227-1	(2004-08)*	Welding of semi-finished products made of high-density polyethylene (PE-HD) for the sealing of concrete structures in the field of ground water protection and for corrosion protection	529
DVS 2231	(2008-12)*	Above-ground tanks, apparatus and piping made of thermoplastics – Guide to quality assurance	549
DVS 2240-1	(2005-05)*	Thread inserts for the joining of mouldings made of plastics	552
DVS 2241-1	(2003-07)*	Direct screwing into mouldings made of plastics	559
DVS 2241-1 Supplement 1	(2007-10)*	Examples – Direct screwing of mouldings made of plastics and additional elements for thin-walled components	567
List of further technical codes		574
